

# HRE 330

## 33cm cut 1100W Electric Lawnmower

### Full width lever

For easy and comfortable operation, using either one or both hands.

### Wire tidy tag

Sliding tag keeps the power cable tidy and away from your feet and the cutter deck.

### Folding handle

Quick and simple folding for easy storage and transporting. The quick-release knobs are also positioned facing inwards to avoid catching bushes or branches.

### Carry handle

Weighing just 12kg and with an integrated carry handle, the HRE 330 is easy to lift and store.

### Stylish, quiet design

The sleek and stylish motor cover also reduces noise – better for you and your neighbours.

### Exclusive blade design

Innovative design is significantly quieter, more robust and durable.

### Easy bag removal

Stone deflector simply lifts forward between the bars for easy removal and location of the grass bag.

### Large grass bag

Our collapsible fabric bag gives excellent airflow for better collection and an impressive 27 litre capacity for less frequent emptying.

### Unique thermal cut-off protection switch

Safely protects the motor from burning out allowing it to cool before further use, preventing any permanent damage.

### Fan-assisted cutting and collecting

The incorporated fan helps the grass blades 'stand up' before cutting. Our unique deck underside design then provides improved airflow to maximise collection and minimise clogging.

UK power socket may vary from type shown.

The new HRE 330 electric lawnmower brings Honda style, quality and ease of use to the smallest gardens. Under the sleek exterior, an exclusive blade and deck design improves airflow for excellent cutting and collecting performance, with a large grass bag to collect more clippings. For added durability and safety, this model also features our unique thermal cut-off protection switch.

Quiet operation, comfortable controls and tidy cable management make the HRE 330 a doddle to use and at just 12kg, it's easy to lift and store.
